

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners “physicians and other healthcare professionals” with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice. Audio-Digest Anesthesiology is specifically designed to provide the participant with state-of-the-art information including, but not limited to: Hazards of working in the OR Hemostasis and hemotherapy Opioids vs. non-opioid anesthesia Inhalation anesthesia Muscle relaxants Local anesthetics Preoperative medication Airway management Monitoring the anesthetized patient Epidural and spinal anesthesia Peripheral nerve blockade Cancer therapy and its anesthetic implications The allergic response Anesthesia for nonoperative locations Postoperative recovery Management of acute and chronic pain The goal of this program is to improve the perioperative management of adult patients with congenital heart disease and coronary stents. After hearing and assimilating this program, the clinician will be better able to: 1: Outline the cardiac pathophysiology associated with common forms of congenital heart disease. 2: Anticipate challenges that may occur in providing perioperative care to patients with congenital heart conditions. 3: Identify major risk factors for late stent thrombosis. 4: Recognize the risks associated with premature discontinuation of antiplatelet therapy, and their management. 5: Plan the perioperative management of patients with drug-eluting stents.

The Social Legislation of the Primitive Semites (Classic Reprint), Radek and Ransome on Russia, being Arthur Ransomes Open letter to America,, Smalltalk 80: The Language, The Good Shepherd, Die Unfreiheit der Friesen zwischen Weser und Jade (German Edition), The Novels And Stories Of Frank R. Stockton ....., Le Monde marche: Lettres a Lamartine (French Edition), A Primer of Air Navigation, Evaluation of water quality for two St. Johns River tributaries receiving septic tank effluent, Duval County, Florida,
