

An ambitious nobleman intends to become king of the Scots. He and his lady allow nothing to stop them--including murder. The attractive and rapidly growing Graphic Classics series uses the graphic novel format to introduce children to many of the worlds greatest literary works. The atmospheric illustrations are of unusually high quality, and the narratives are paced to attract and hold young readers interest. In addition to the story, each Graphic Classic features a brief biography summarizing its authors life, a list of his or her important works, a time line of historic events that helped inspire the story, general notes, and an index. These books make ideal introductions to the riches of world literature to junior and senior high school students--and especially to those young readers who are hesitant to delve into the books in their original form. This edition has a hardcover binding. All Graphic Classics are available in both paperback and hardcover editions.
