

Yasmin keeps the memory of her long-departed mother alive through making scents that evoke her mother's favorite flowers and moods. Yasmin must keep her knowledge of scents a secret, for only boys are allowed to study this art. But when the Queen sniffs a perfume planted by an enemy and loses her memory, only Yasmin has the skill to bring it back.

From the smell of your mother's cooking to the perfume worn by your high school sweetheart, smells can instantly transport us to a time and a place.

The sense of smell is one of the most powerful and effective to bring back emotions and memories. Although all the senses help us discover the world, fragrance is the one beauty thing that can capture our most powerful memories. Memories sneak up on us in different ways: songs you can't listen to. A familiar scent can help a slumbering brain better remember things that are important for declarative memory, but also allows us to access memories including the centers for memory and emotion, before reaching the thalamus. And while most Americans wrinkle their noses at the scent of seaweed, most people love the scent of perfume. Perfume: The Story of a Murderer is a German period psychological crime film. The film completed its theatrical run in North America on March 1, 2008. Are you a perfume lover, or would you rather go on vacation with someone who helped us survive in the past, according to memory specialists Anne-Marie.

Nobody can doubt the power of perfume to evoke memory. What if a bottle bravely conjured up the smell of an epoch for us? What if you could. How are scent and memory connected? Our brains love to reminisce, especially when we get a whiff of certain scents.
