LibraryThing Review. User Review - DinadansFriend - LibraryThing. I haven't encountered many books on the aftermath of WWII in Asia and it's very interesting . Looking at the war in terms of 'battles' tends to increase the apparent In contrast Japan, at that time a second-rate regional power, could not have Furthermore, 'most significant' is not the same as 'most decisive', 'biggest'. The Decisive Battle Doctrine (???? Kantai Kessen; naval fleet decisive battle ) was a naval strategy adopted by the Imperial Japanese Navy prior to the Second World War. In the Decisive Battle Doctrine the Japanese navy would win a war by fighting and winning a single, decisive naval action. In June , Japan deployed about , troops to invade They were soundly defeated in the Battle of.

Congress declared war on Japan with only one dissenting vote. It was assumed that decisive battles would be fought mainly by the big guns of the battleships.

Even if the Japanese had taken Hawaii they could not have threatened the American industrial juggernaut. The most decisive battle in the Pacific was hands . Six months after the attack on Pearl Harbor, the United States defeated Japan in one of the most decisive naval battles of World War II. Thanks.
