

Few if any 20th century warships were more justly acclaimed than the destroyers of the U.S. Navys Fletcher class. Admired as they were for their advanced and rakish design, it was their record as workhorses of the Pacific War that placed them among the most battle-tested and successful fighting ships of all time. This title describes the Fletchers and their Allen M. Sumner and Gearing-class derivatives, their machinery, armament, and construction, with a listing of all 343 ships by hull number and builder. It features an operational history of the 287 ships commissioned during World War II, which traces the evolution of night surface action tactics in the Solomon Islands and the parallel development of the Combat Information Center; the drive across the Pacific and liberation of the Philippines with tables showing the rapid introduction of new squadrons; and the radar pickets climactic stand against kamikaze aircraft at Okinawa. With summaries of losses and decorations and specially commissioned artwork, this is a definitive book on the wartime US destroyer classes.

The 9/11 Commission Report: Final Report of the National Commission on Terrorist Attacks Upon the United States (Cosimo Reports), King Alfreds jewel, THE PEDIATRIC CLINICS OF NORTH AMERICA: PEDIATRIC DERMATOLOGY - 3 VOL.
